STRATEGY OF DESIGN, EXECUTION AND EXPLOITATION OF SMALL DRINKING OR WASTE WATER TREATMENT PLANTS

Vasile Meglei*, Oana Luciana Ghiorghita, Mihai Armeanu

Abstract

Commercialization of prefabricated modules for drinking water and wastewater treatment requires some amendments to Quality in Construction Law no. 50/1995, further obligations for the supplier according to the Consumer Protection Law and a careful checking of design parameters on behalf of the consultant or the designer regarding the adopted technology and also an appropriate site.

Keywords: small communities, WWTP, modules, commissioning, metallic containers, pre-cast containers
